Lincoln Parks and Recreation Committee

RE: November 30, 2022 – Special Town Meeting, Community Center Request for Funding

The Parks and Recreation Committee is pleased to submit this letter of support to the Community Center Building Committee for the initial funding of approximately \$325,000 for the OPM & Architect of the proposed Community Center.

The new Community Center will house the Parks and Recreation Department and will serve as the primary space for recreational programming for the town.

A new Community Center is crucial in providing quality opportunities for residents of all ages to socialize and develop interests, skills, and healthy lifestyles.

We thank the staff and volunteers who serve on the Community Center Building Committee and again, support the initial ask for funding to continue the proposal process.
