Anita Spieth, Chairperson

RE: March 23 – Town Meeting, Community Center Request for Funding

The Parks and Recreation Committee is pleased to submit this letter of support for article 4 at the Lincoln annual Town Meeting to fund a proposed new the Community Center.

The new Community Center will house the Parks and Recreation Department and will serve as the primary space for recreational programming for the town. The COVID pandemic has shown us that the current recreation space at the pods is inadequate to support the programming the Lincoln community deserves, from school-aged classes to adult sessions.

A new Community Center is crucial in providing quality opportunities for residents of all ages to socialize and develop interests, skills, and healthy lifestyles. The community needs and deserves the Community Center.

We thank the staff and volunteers who serve on the Community Center Building Committee and again, support a "YES" vote for Article 4 on March 23<sup>rd</sup> and a "YES" vote on Monday, March 25<sup>th</sup> to bond the project, and we hope that anyone who has or plans to enjoy Parks and Recreation programming does the same.

Parks and Recreation Committee
